

# Coronavirus disease 2019 (COVID-19)

## Situation Report – 68

Data as reported by national authorities by 10:00 CET 28 March 2020

### HIGHLIGHTS

- More than 1 million cases have been reported globally, with the majority of cases reported in the Western Pacific Region and the European Region.
- The number of deaths has increased to over 100,000 globally, with the highest number of deaths reported in the European Region.
- The number of cases has increased in most regions, with the largest increases reported in the Western Pacific Region and the European Region.
- The number of cases has decreased in some regions, with the largest decreases reported in the African Region and the Region of the Americas.

### SITUATION IN NUMBERS

total (new) cases in last 24 hours

#### Globally

1 000 000 (1 000 000)

#### Western Pacific Region

100 000 (100 000)

#### European Region

100 000 (100 000)

#### South-East Asia Region

100 000 (100 000)

#### Eastern Mediterranean Region

100 000 (100 000)

#### Region of the Americas

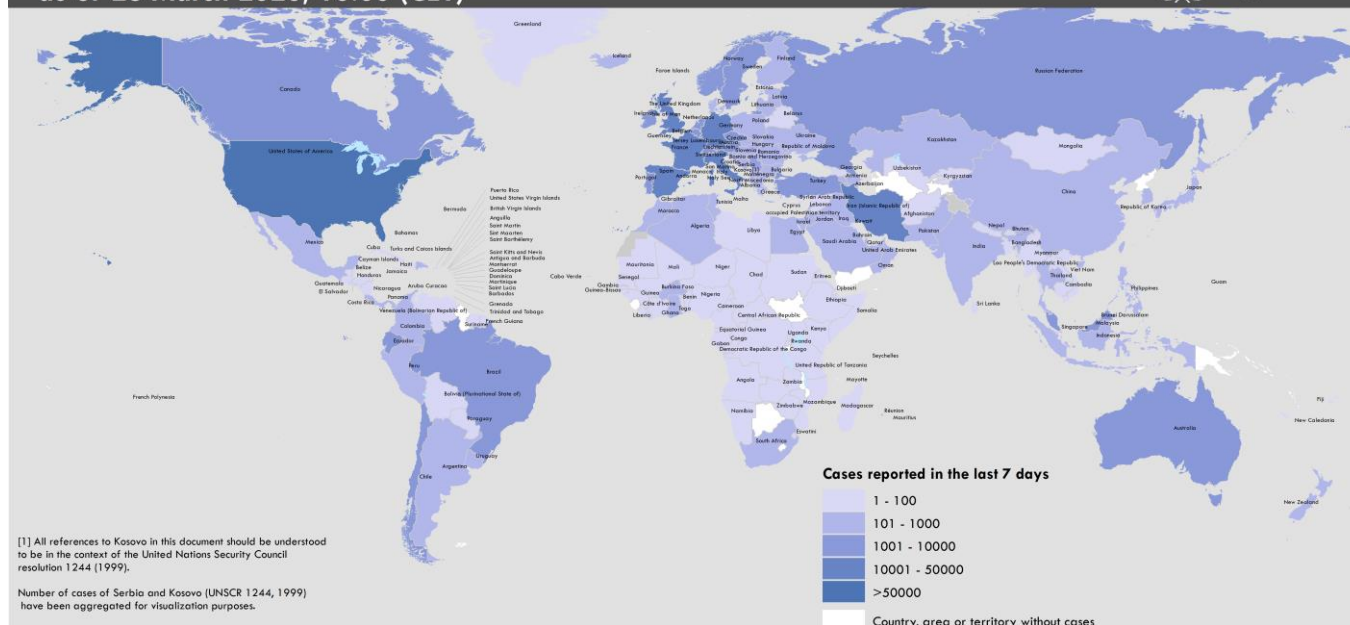

100 000 (100 000)

#### African Region

100 000 (100 000)

F 100 000

Countries, areas or territories with COVID-19 cases reported in the last 7 days, as of 28 March 2020, 10:00 (CET)

[1] All references to Kosovo in this document should be understood to be in the context of the United Nations Security Council resolution 1244 (1999).

Number of cases of Serbia and Kosovo (UNSCR 1244, 1999) have been aggregated for visualization purposes.
